Total Expenditures	\$174,732.60	\$181,769.20	\$202,778.15
Resolved, to adopt the budget as recommended by the Finance Committee, with the exception of schools and other fixed items.			

Article 3. To see if the town will vote to allow the selectmen to deliver the inventory blanks at the time of taking inventory.

Resolved, to adopt the article.

Article 4. To see if the town will vote to authorize the selectmen to borrow on notes on the credit of the town, such sums of money as may be necessary to meet current expenses in anticipation of taxes.

Resolved, unanimously, to adopt the article.

Article 5. To see what action the town will take in respect to appointing three members of the finance committee for the ensuing three years.

Resolved, that the following be elected as members of the finance committee for three years.

Rolfe L. Jacobs Cecil Fisk Walter Piletz

Article 6. To see if the town will vote to accept all trust funds received for perpetual care of lots in the cemeteries.

Resolved, that the article be adopted amended as follows: "That the town will accept all trust funds of \$100.00 or more to receive perpetual care of lots in the cemeteries."

Article 7. To see if the town will vote to authorize the selectmen to borrow a sum of money not to exceed \$2,300.00 for the use of the water department to pay outstanding liabilities incurred by new developments and replacing old portions of the system, the above to be repaid out of earnings at the rate of \$250.00 per year, plus interest, beginning 1955. (Requested by the Water Commission).

Resolved, unanimously to adopt the article.

Article 8. To see if the town will vote to raise and appropriate a sum of money not to exceed \$1,200.00 for the purpose of making a survey and bringing up to date such maps as are in existence, showing the water distribution system and the sewerage collection system. (Requested by the Water Commission).

Resolved, to adopt the article.

Article 9. To see if the town will vote to raise and appropriate a sum of money not to exceed \$1,000.00 for the development of the new cemetery. (Requested by the Improvement Committee).

Resolved, to adopt the article with the amendment that \$500.00 be appropriated instead of \$1,000.00.

Article 10. To see if the town will vote to buy a lot of land now owned by Julian Harvey, adjacent to the road now leading into Snumshire Cemetery lot, for the purpose of straightening the road, provided that the lot now occupied by the road can be sold for enough to cover the cost of the new lot. (By request).

Resolved, to accept the following amendment in place of the original article. "The intent of this article is to straighten the road leading into Snumshire Cemetery, therefore I make the motion that the town accept the piece of land which Lovell and Charlene Comstock will give to the town without charge, for the purpose of straightening said road."

Article 11. To see if the town will vote to authorize the selectmen to borrow a sum of money not to exceed \$2,000.00 to be used to control gypsy moths if a serious infestation develops. This money will be borrowed and control work undertaken only if a majority of the Selectmen and Finance Committee members decide that it is necessary.

Resolved, to adopt the article.

Article 12. To see if the town will vote to install a street light on Marcy Avenue, between Springfield Road and Walter Sherman, and appropriate money for this purpose. (By request).

Resolved, to adopt the article.

Article 13. To see if the town will vote to install a street light near the residence of Frank Horton, and appropriate money for this purpose. (By request).

Resolved, to adopt the article.

Article 14. To see if the town will vote to install a street light near the residence of Arthur Moore, and appropriate money for this purpose. (By request).

Resolved, to dismiss the article by a 30 to 22 vote.

Article 15. To see if the town will vote to install a street light on School Street at the entrance of Arbor Way and appropriate money for this purpose. (By request).

Resolved, that the selectmen ask the Light Company to have the street light which is located at School Street half way between Main Street and Arbor Way moved to a point near the entrance to Arbor Way.

Article 16. To see if the town is in favor of major improvements being made to the Town Swimming Pool, these improvements to be made under the supervision of the selectmen and at no cost to the town.

Resolved, to adopt the article.

Article 17. To see if the town will instruct the Town Development Committee to make a study of the suggestion of the Town Managers Committee in its report to the 1952 Town Meeting that "at some future time" the voters seriously consider electing one person to serve as tax, water and sewer collector, town clerk, and assistant to the selectmen, and offer specific recommendations to the next annual meeting.

Resolved, to adopt the article.

Article 18. To transact any other business that may legally come before said meeting.

John T. Lyon was reappointed as a member of the Road Committee.

Cedric Lumbr, Rolfe Jacobs, and Noyes Stickney were appointed as members of the Town Improvement Committee.

Motion made and voted that the Cummings Avenue Swamp Committee and Selectmen continue efforts to better swamp conditions.

Resolved, to accept the following recommendations of the Highway Advisory Committee:

1. That a suitable railing be placed along the highway by Farwell Mill.

2. That, when trading trucks, the dump body on the old truck be transferred to the new cab and chassis.

3. That weed killers be used to keep down brush along highways.

4. That the use of town equipment for doing private jobs, such as graveling driveways, etc. be kept to a minimum. Also that, in using the town mower, first consideration be given to trimming the town highways, rather than renting it to the state to be worn out.

5. That, when a man must be replaced in the Highway Department, consideration be given to securing a person who can act as maintenance man. His job will be to see that the equipment is properly serviced and refueled at such times as will result in a minimum of interference with their normal use. Also, it will be his responsibility to do repair work where specialized facilities are required. The balance of his time to be spent filling in, where needed, in the department. It is expected that such a man's rate of pay would be higher than average for the department but it is hoped that a greater efficiency in the department would result, and possibly some cash savings.

6. We further recommend that serious thought be given to reducing the number of full time men in the Highway Department. Previously it was felt that help must be given a full time job in order to have it available when needed. The situation seems to have changed so that we have reason to believe that capable help can be secured on fairly short notice at those seasons when the work demands it.

We believe that substantial savings to the taxpayer could result if this plan is wisely followed.

These recommendations are not intended as criticism of the Highway Department, which has shown marked improvement as compared to its operation of a few years ago, but, rather, these

recommendations are respectfully presented because we believe that they represent sound business principles.

Signed,

HORACE BASCOM, Chairman,
Highway Advisory Committee
WILLIAM AHERN

SPECIAL TOWN WARRANT

State of New Hampshire

To the inhabitants of the Town of Charlestown, in the County of Sullivan, in said State, qualified to vote in town affairs:

You are hereby notified to meet for a Special Town Meeting at the Town Hall said Charlestown on Saturday, the tenth (10th) of July next, at two o'clock in the afternoon, to act on the following subjects.

Article 1. To see if the town will vote to replace the highway bridge on the main highway, known as Route No. 12A, leading from South Charlestown to Alstead, and to authorize the Selectmen to borrow a sum of money not to exceed \$7,000.00 to replace said bridge; the money to be repaid at the rate of \$2,500.00, plus interest, in 1955 and 1956, and \$2,000.00, plus interest, in 1957.

Resolved to adopt the article by a ballot vote as follows:

Yes 22 No 4

Article 2. To transact any other business that may legally come before said meeting.

No new business was brought up.

The meeting was adjourned at 3.45 o'clock P. M.

A true copy, attest

WILLIAM S. FAIRBANKS
Town Clerk

TOWN WARRANT

The State of New Hampshire

To the inhabitants of the Town of Charlestown, in the County of Sullivan, in said State, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Charlestown on Tuesday, the eighth (8th) day of March next, at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose the necessary town officers for their respective terms.

Art. 2. To consider the budget. To raise such sums of money as may be deemed necessary for the maintenance of the poor, laying out and repairing highways, building and repairing bridges, street lighting and for the necessary charges arising within the town.

Art. 3. To see if the town will vote to allow the selectmen to deliver the inventory blanks at the time of taking inventory.

Art. 4. To see if the town will vote to authorize the selectmen to borrow on notes on the credit of the town, such sums of money as may be necessary to meet current expenses in anticipation of taxes.

Art. 5. To see what action the town will take in respect to appointing three members of the finance committee for the ensuing three years.

Art. 6. To see if the town will vote to accept all trust funds of \$100.00 or more for perpetual care of lots in the cemeteries.

Art. 7. To see if the town will vote to raise and appropriate the sum of \$800.00 to pay the Town's share of Social Security for its employees for the year 1955.

Art. 8. To see if the town will vote to authorize the selectmen to borrow up to the sum of \$3,000.00 for the purpose of installing adequate flashing red light warning signals at the North Charlestown Station crossing, under the following conditions:

1. That the State Public Utilities Commission decides that the Boston & Maine Railroad shall pay at least half of the installation cost.

2. That one half of the money borrowed plus interest be repaid in 1956, and the other half plus interest be repaid in 1957.

Art. 9. To see if the town will vote to authorize the selectmen to borrow up to the sum of \$3,000.00 for the purpose of installing adequate flashing red light warning signals at the Bowen Mill crossing, under the following conditions:

1. That the State Public Utilities Commission decides that the Boston & Maine Railroad shall pay at least half of the installation cost.

2. That one half of the money borrowed plus interest be repaid in 1956, and the other half plus interest be repaid in 1957.

Art. 10. To see if the town will vote to raise and appropriate the sum of \$3,500.00 for the purpose of having all taxable property in town appraised by the State Tax Commission. (By petition).

Art. 11. To see if the town will vote to authorize the selectmen to borrow a sum of money not to exceed \$2,000.00 for the use of the water department, to replace the 2 inch pipe with 6 inch cast iron pipe, from E. Paquette's residence in a westerly direction to the so-called River View Park, and install a hydrant at the westerly end, this money to be repaid out of earnings of the water department. (By request).

Art. 12. To transact any other business that may legally come before said meeting.

Given under our hands and seal this nineteenth (19th) day of February, in the year of our Lord 1955.

Highway Report

The following is a condensed summary of the work done by the highway department:

- Set 140 new guard posts.
- 8 culverts installed - 2 lengthened.
- Re-planked two bridges on Meany road.
- Re-built bridge on Farwell road.
- Re-built bridge on the Harvey Putnam road.

Roads widened and graveled as follows:

- Dug out Hill.
- Section of road on Jay Meadow.
- Road in rear of Al Roy residence - culverts lengthened.

The following roads were tarred:

- Acworth road to the town line.
- 1 1-2 miles of Unity road.
- Whiskey Road.
- Baldwin Court.

Willard St.

Bridge St.

School St.

Elm St.

Olcott Lane

Drew 8,025 cubic yards of gravel.

Used 1,240 cubic yards of sand.

Used 55 tons of salt.

Respectfully submitted,

JOHN W. MORRIS

Payloader Report

The town voted that the Selectmen keep a separate account of repairs and parts for the payloader, and publish same in the Town Report.

In the year 1954 there was one breakdown involving the transmission and clutch. The cost for parts and labor was \$436.91. The payloader is two years old and to date this is the only major item of expense.

Town Road Aid Report

Town road aid is for work on Class 5 roads, which are school bus and mail routes. \$6,122.16 was expended on this work in 1954 in Charlestown. The town spent \$798.54 and the State furnished the balance of \$5,323.62. The work this year was a continuation of work started on the Hemlock road, and was under the supervision of a state highway engineer from the Keene office. Mr. Kenneth Whitney was the state timekeeper on this job. Mr. Whitney's report shows the following:

1. Cut 98 trees, over 6 in. in diameter.
2. $\frac{1}{2}$ mile of brush was cut.
3. Used 2,602 yards of gravel.
4. Installed 16 header posts.
5. 33 ft. of 12" culverts
33 ft. of 24" culverts
198 ft. of 15" culverts

Area covered 828 acres.		
Currant and gooseberry bushes destroyed 1,439.		

Notes of Appreciation

The town will have the dial telephone system starting about April, 1955. The selectmen, fire chief, police chief and citizens of Charlestown take this opportunity to publicly thank Mrs. Harland Taylor and the telephone operators for the efficient public service they have rendered to the town.

The members of the Charlestown Grange during 1953, as a community service project, redecorated the lower town hall.

MONUMENT COMMITTEE REPORT

This year found the committee finally getting the monument facts to a point and in the spring the monument was set into place on the green beside the other statue.

A little later the monument was dedicated with a nice crowd attending, and many veterans from organizations both in town and from surrounding towns.

I wish to extend my thanks to the members of the committee and others for any and all assistance.

Committee dissolved!

HAROLD K. MOFFATT, Secretary

WATER COMMISSION

Report of the Secretary and Treasurer of the Water Commission.

In an attempt to bring our financial position on a sounder basis, the activities of the Water Department for the past year have been confined principally to the most essential of repairs.

The strict program of economy which we have been following has allowed us to reduce our outstanding liabilities to the point where it was necessary to use only \$1,200.00 of the \$2,300.00 voted at the last Town Meeting.

I believe this policy should continue through the coming year; further, that an increase of rates be made in the amount of 15% which will bring a return of approximately \$1,000.00 per year. This will allow us, in 1956, to again have money available for new projects. As near as I can determine, no general rate increase has been made in over 25 years.

A study of our collection system or water shed, in order to establish a long range program for the purpose of enlarging and improving our system, has been carried on with the aid of the State of New Hampshire Water Resources Board. At present, it does not seem advisable to undertake any major projects beyond a gradual installation of a metering system which will eventually develop a more equitable rate program, at the same time discouraging wasteful use of the water.

AUDITORS' REPORT

February 4, 1955

We, the undersigned Auditors of the Town of Charlestown, have examined the accounts as set forth in the accompanying schedules of the Selectmen, Town Treasurer, Treasurer of the Silsby Free Public Library, Water Commissioners, Town Clerk, Tax Collector, Trustees of Trust Funds, and other Town Officers, and find them correct to the best of our knowledge.

CHARLES F. ELLIOTT
ALTA G. CURRIER
ROMAINE F. BACON

REPORT OF THE HEALTH OFFICER, 1954

The contagious diseases were mumps, measles, whooping cough.

The water at Charlestown and North Charlestown has been submitted to the State Department of Health for tests and is reported satisfactory.

E. PECKHAM BARBER, Health Officer

REPORT OF THE TOWN HISTORY COMMITTEE

The manuscript for the new History of Charlestown is completed and ready for the printer. It is anticipated that the cost will be well within the bond issue authorized by the town for the purpose. The committee will begin to take orders this spring and the books will be ready late in September.

MARTHA FRIZZELL

REPORT OF THE COMMITTEE OF THE FUTURE IMPROVEMENT OF CHARLESTOWN

During the past year we have held meetings at which were discussed items pertaining to the betterment of Charlestown.

We wish to thank the Selectmen for their aid in helping our committee and for their attendance at our meetings.

Among the many subjects discussed, the following were the uppermost:

- Water and its distribution
- Combining of water and sewer department
- New cemetery
- Combining of town offices
- Town manager
- Town lighting

State engineers have been in town during the past year, and having made a study of the water situation, have made the following comments:

"Installation of meters on all services, possibly over a period of years. All new services should have meters installed and as many old services changed as possible until all are metered. In some places, as much as 50% reduction in consumption has resulted. At present, the average customer, industrial, commercial and residential, uses 11,700 cubic feet per annum. Probably a revision in rates would increase the revenue for installing meters out of yearly revenue.

"Raising of Hall Pond by 3 feet which would more than double its present storage. This would require lengthening the main dam from 225 to about 375 feet and lengthening the dike from 100 feet to 130 feet. This would increase the storage by 35 acre-feet or 11 million gallons—about 90 days supply at present consumption. This raising of Hall Pond in conjunction with metering all services should provide adequate water for many years

to come. This plan should be thoroughly investigated in conjunction with the other suggestions as to economic feasibility before it is executed, however

“Raising of the Upper Dam by five feet should increase the storage from 1.8 million gallons to 4.4 million gallons, and increase in storage to care for three weeks of present use. This method with metering would help the storage appreciably. The dam would have to be raised and strengthened somewhat, however.

“Construction of a new storage reservoir, on a tributary coming in from the north of Upper Reservoir and about one mile above it near the end of wood road as shown on the U. S. Geological Survey map, could increase the storage even more than raising Hall Pond. This has a drainage area of 720 acres, 50% greater than that of Hall Pond. This location has not been checked in the field due to snow but should be considered in any plan for increasing storage. It might require a 12 ft. high dam 400 ft. long.”

Having studied the above comments, we, the committee, recommend that the water commission raise the rates on water rent as deemed necessary.

We recommend that one person run for the following offices: tax collector, water commissioner, and town clerk, in order to combine these offices to localize the services.

We further recommend that the water and sewer departments be combined under the supervision of the Selectmen.

The Granite State Electric Company has continued to replace old street lighting fixtures and will continue to do so wherever necessary.

Study was made on the town manager form of government but too little information available as yet for a report. Will continue the study during the next year.

Our final recommendation for the year is that further work be done on the new cemetery, to continue the good work as in the past year.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Charlestown:

I herewith submit my third annual report as Superintendent of Schools.

Administrative and Professional Staff

Mr. Waldo Streeter accepted a position in the public school system of Darien, Connecticut, and, after screening and interviewing some twenty candidates, Mr. John Herbert was nominated and elected to fill the position of principal at the high school. Mr. Herbert's eight highly successful years as teacher-coach in Charlestown have contributed immeasurably to his ability to successfully make the transition to administrator. He has also continued to teach mathematics and coach the boys' varsity basketball team.

Mr. Paul Fako, Jr., a graduate with a master's degree in Physical Education from Springfield College, teaching experience in Plainfield, Connecticut, and at the Walter Reed Army Medical Center in Washington, D. C., was employed to teach and expand the physical education program. He has coached girls' basketball, boys' junior varsity and junior high basketball. He has carried on a limited physical education program at the Holden School. In the fall he coached the boys' cross-country team, and it is expected that he will try to include golf and tennis during the spring season. To add to the regular classroom load, he is teaching biology.

Miss Mary E. Weber, a graduate of Russell Sage College, with a master's degree in languages from Middlebury College, was employed to teach English, Latin and Spanish. Miss Weber has had ten years' teaching experience in New York State and attended the University of New Hampshire during the summer of 1954. Miss Weber has strengthened the English-Language department and has done well in coaching dramatic presentations. She has supervised the school library.

Miss Elizabeth Annis was employed to replace Miss Virginia Bonner, who was married during the summer. Miss Annis, a graduate of Plymouth College, has had three years' experience at Sunapee. Miss Annis, in addition to teaching the commercial subjects, maintains the school financial accounts. She is in charge of duplicating and mimeographing the newspapers and activities programs for plays, music, winter carnival and commencement exercises. She is an efficient teacher and a most enthusiastic supporter of school affairs.

Mrs. Beatrice Bovers, a graduate of New Jersey Teachers College, with fifteen years in the public schools of New Jersey, was employed to replace Miss Dorothy Jane Sayce in the junior high school. Miss Sayce was married and is now teaching in the Newton, Massachusetts, school system. Mrs. Bovers' many years of teaching experience have been put to use most successfully in Charlestown. She has also assumed the responsibility of advising the pupils in the publication of the school newspaper.

We miss the many services of Miss Sayce in teaching dancing, coaching girls' sports and her other associations with the boys and girls of Charlestown.

Mr. Alan Davis, a graduate of Keene Teachers College, with teaching experience in Peterborough and Enfield, was employed to teach mathematics and science in the junior high school. He replaced Mr. Lawrence Reney who had completed the year for Mr. Frank Weaver. Mr. Davis is teaching business arithmetic in the high school, and was in charge of the winter carnival skiing events. It is expected that he will assist with the sports program in the spring.

Mr. George Brown, a graduate of the University of New Hampshire, who has also obtained a master's degree in Education from the University of New Hampshire and attended the University of London and Harvard University, was employed to replace Mr. Elmer Gould. Mr. Gould moved to California where he is teaching a sixth grade class. Mr. Brown is teaching the sixth grade at the Holden School and is acting principal of the Holden School and Stucco Building. He has had teaching experience in Wrentham and Arlington, Massachusetts. He is a very energetic and enthusiastic teacher and administrator. It is largely due to his activity that a Parent-Teacher Organization has been formed for the elementary grades. I believe he has fulfilled the administrative position very capably even though he succeeded an experienced person such as Mr. Gould.

Mrs. Doris Blodgett returned to teaching in Charlestown when Mr. Henry Bresell resigned. She is teaching the fifth grade at the Holden School.

The school board and your superintendent feel that we have been most fortunate in securing experienced teachers to replace those who have left. The growing shortage of teachers makes it more difficult each year to find replacements.

We believe there is a definite need to add a remedial teacher to the staff, this teacher to work especially in the field of reading and arithmetic for all grade levels.

With a change in administration at both the high and elementary schools, the fact that most of our experienced teachers remained in Charlestown, and continued to teach effectively and to supervise or give instruction in the extra curricula activities, has been of extreme importance to you as citizens. The real values are exemplified in the education of our boys and girls.

There will be changes next year with Miss Susie Benway retiring and other teachers changing within the system or moving to other school systems.

Buildings

High School:

The junior-senior high school building received attention of the painter in the cafeteria, boys' basement, and the teacher-nurse's room. A sound-proof ceiling was installed in the music room, and windows were installed between the kitchen and serving-room of the cafeteria. Steps were installed leading from the parking area near the shop to a diagonal walk leading to the south entrance of the building. Spotlights and a lamp-post were installed to better illuminate this entrance at night.

Four backboards were installed in the gymnasium, and the bandstand was enlarged for the summer concerts. The play area at the rear of the gymnasium was further graded and partially surfaced. Plans are made to complete this work in the spring. Radiators were moved from the music room to the office practice room and others were installed in the nurse-teachers' room.

The building was thoroughly cleaned during the summer.

Holden School:

The hallways, one room and parts of two others were painted in addition to the usual cleaning, sealing and waxing of floors. Curtains and windows were repaired and the furnace cleaned. Screens, drinking fountains and desks were repaired.

Stucco Building:

The front porch, steps and toilet-room floors were painted. The stairwell leading to the kindergarten room was painted. The rooms and windows were cleaned and floors cleaned, sealed and waxed. The furnace was checked and cleaned. Mr. Clarence Ellis has been janitor of these buildings but left in February to return to work in the machine shop.

Farwell School:

The two classrooms and hall were completely redecorated and floors cleaned, sealed and waxed. Screens were added to some windows.

Recommendations

It is most gratifying to look at the two previous reports and find that most of the recommended additions and improvements have been completed. Installation of additional fencing, backboards, shop equipment, walks, steps, sound system, ceilings and bandstand have been effected. The playground is receiving attention. A new bus was purchased.

To further facilitate effective teaching and development of the school program, I recommend the following:

1. A committee to investigate the need within the next two years of additional elementary classrooms.
2. The purchase of land adjacent to the swimming pool for development as an athletic field.
3. Purchase of additional equipment for the gymnasium to facilitate the teaching of physical education.
4. Expenditure of money to further develop the elementary and high school libraries.
5. The employment of a remedial teacher.
6. Development of the shop and other programs to include adult evening or Saturday classes.
7. Continued evaluation and examination of our program of studies by both the professional staff and lay citizen's groups.

May I again call your attention to the need for additional state and federal aid for the support of education. The budget for next year reflects the increased costs in terms of books, supplies, salaries, equipment and fixed charges such as retirement and insurance. These increases will be felt even more acutely by the taxpayers unless state aid is voted by the present Legislature. Charlestown received approximately \$25,000 this year. We need about \$33,000 next year to prevent a rise in tax assessment. General aid, flat grant, building and transportation aid would all benefit Charlestown.

The other towns in Union No. 5 are just as urgently in need of this aid. Cornish completed a \$120,000 elementary school for occupancy in September. Unity completed a \$65,000 elementary school in February, and the Goshen-Lempster Cooperative School District expect to vote a \$60,000 building in March. The building programs continue to usurp much of your superintendent's time.

May I express my sincere appreciation for a cooperative and hard working school board, teaching staff and custodians. May I also express appreciation to the citizens for their interest and financial support.

Respectfully submitted,

RALPH H. MEACHAM, Superintendent

HIGH SCHOOL PRINCIPAL'S REPORT

For the past five months most of the activities of Charles-town High School have been of a traditional nature. However, we are constantly striving to evaluate the quality of the activity whenever possible.

In view of conflicting philosophies, we are placing our major emphasis on the academic program. It is our hope that the other activities can be used to increase the effectiveness of, and not take the place of, our academic program. Whenever practical, we try to increase participation, to educate the whole child and to evaluate the participation in terms of changes which are taking place in each student.

Essentially, there have been no basic changes in the program of studies. Every attempt is made to give each student the exact subjects of his or her choice. Of course, there are cases when a limited school day and faculty personnel make conflicts unavoidable.

Every student, who can schedule without conflict, is required to take two periods of physical education per week. In this program, emphasis is placed not only on physical fitness, but also the social value of sports and playing together. Physical examinations, given by Dr. Willard and Miss MacIver, are fundamental to the success of this program as well as the physical welfare of each individual. The efficiency of the gym was greatly increased by the four side backboards which were installed by Mr. O. W. Stevens.

In terms of a long range program, we are attempting to re-organize our offerings in mathematics and English. Starting with the present sophomore class, a student will be able to elect an added year of mathematics. The four year program will consist of two years of algebra, one year of geometry, one-half year of trigonometry and one-half year of advanced mathematics. The English teachers are working with representatives of the elementary school, under the supervision of Mr. Meacham, in an attempt to organize the English courses. On the junior high level, we have increased the length of the mathematics period and will try to increase the time devoted to English.

Mr. Meacham and the school board have staffed the school with a well qualified and cooperative faculty which is considered, by many authorities, to be the most essential factor in any educational program. Parents and students are well aware of the many hours of planning and supervision which the teachers devote to school activities. The faculty members have willingly accepted their present extra-curricular assignments and have

made the activities an interesting and worthwhile experience for the students who participate.

The commercial department has been very efficient in the keeping of all school and hot lunch accounts, as well as its work in the distribution and recording of tuberculosis seals, March of Dimes and the periodical school reports.

The music department continues to be recognized as one of the best small school organizations and made a very favorable impression on members of the State Teachers Association at their centennial in Manchester last fall.

The yearbook production, "The Blue and Gold", has reached the point where it has traditional value and is a production of which each class is very proud. It requires considerable planning for a commendable production and the students are encouraged to start thinking in terms of material for their yearbook during their first year of high school.

The Projector Club furnishes each class with two qualified projector operators who have been trained in the care and use of this equipment. The visual aids department and the Projector Club spend many hours keeping records on films, equipment and serving the school needs in a program which is very influential in presenting the student with new insights to increase the efficiency of learning.

The student council has continued to be a very active and responsible student organization. In addition to the routine magazine drive and school calendar for social events, they have sponsored a council-conducted morning study hall which is of benefit to students who wish to come to school and be admitted for study in the morning. One section of the council is an important part of the winter carnival committee and the other section is making an interesting study of a plan for increased student participation in assembly programs.

I feel indebted to many teachers, parents, students and organizations for their support of our program. We are fortunate in having an experienced group of cafeteria workers who add to the program of the school by preparing a hot lunch at a moderate price, and an experienced custodian who knows the importance of keeping the building in good condition and who is a very understanding friend of the students. Several girls devote their study periods to assist with minor office routine. I would like to recognize Mr. Streeter as being very influential in our present program and to thank Mr. Meacham and Mrs. Bradish for contributing much of their time and for the benefit of their experience.

It is our constant aim to do our utmost to repay the community with a worthy citizen who will be a credit to the schools of Charlestown and a contribution to the community and society.

Respectfully submitted,

JOHN HERBERT, Principal

HOLDEN SCHOOL PRINCIPAL'S REPORT

It is customary in writing yearly reports to consider some aspect of education in the opening remarks. In this report let us get at the very root of the thing, that which embraces all the varied aspects of education, i. e. why do we have schools? Too often we take some things for granted and schools frequently suffer from this complacency. If, however, you do think a little about this question, the difficulty of finding a pat answer is soon apparent. There is not one answer, but a combination of many answers. We want our children to learn the three R's, to get good jobs, maybe go to college, learn to think for themselves, get along with others, have friends, be happy, be good citizens—all these things and many more.

Yet, these answers are not as simple as they at first appear. Let us examine just one of these aims—be good citizens. We have lots of words that go along with good citizenship: democracy, the right to vote, paying taxes, freedom, duty, our heritage, tolerance, patriotism, etc. These are fine words and we are indeed fortunate to be able to use them to describe citizenship in our country, but again we are too often complacent about them and their real meaning. To be specific, will being a citizen in Charlestown in ten or twenty years be the same as we know it today? What can we do about these changes? Are changes inevitable? Can we stop these changes? Is it even worth bothering about? These are some of the questions that center about only one of the phases of just one of the many aims we have for our schools. Each could be similarly developed.

We at the Holden and Stucco Schools feel that all these questions are important. We are pleased that our new Parent-Teacher Organization will enable us to work together with you on some of these questions. We always welcome visitors and are encouraged by their interest in what we are trying to do. We want to combine the best of the old with that of the new which might help us in our teaching.

As a group, we are re-examining language and arithmetic in our curriculum. As individuals, we are constantly looking for ways to improve our teaching. From a new principal's viewpoint, let me say that Charlestown is very fortunate in having fine elementary teachers. They display a high standard of teaching, are cooperative and are sincerely concerned with the education of their pupils.

Because of the combustible nature of the Holden School, we have stressed fire drills at every opportunity. The building can be emptied in forty-five seconds. However, if the main stairway which is used by three of the upstairs rooms, is blocked, it takes around three minutes to clear the second story.

A Correspondents Club, under the direction of Mrs. Harold Blodgett, was organized this year. This group sends a weekly news report of school activities to newspapers in this area.

We have increased our film program, taking advantage of the many fine educational films available at very low cost. Mr. Harold Woodward has done an excellent job as audio-visual director for the school.

The teachers have furnished and decorated by themselves a small room in the basement for a teachers' room. It is very homey and makes a pleasant place for teachers' meetings.

Looking to the future, we are disturbed by the crowded conditions which seem inevitable. Even now, three of our rooms are near to bursting. This means, of course, that the teacher cannot give individual children the time and the help they need. It is the children who suffer.

In closing, I would like to thank all those who have helped us this year. The Mothers' Club gift of books for our library is much appreciated. Mrs. Ruth Davidson of the town library has been especially cooperative with teachers and children.

Again let me extend a cordial invitation to you to visit us. You are always welcome.

Respectfully submitted,

GEORGE I. BROWN, Principal

SCHOOL NURSE'S REPORT

In 1833 a law was passed in France requiring school committees of towns and cities to keep school houses clean. From this very simple but necessary beginning, stem our present day school health services.

What are school health services?

School health services are procedures established: (a) to appraise the health status of pupils; (b) to advise pupils, parents and others of the appraisal findings; (c) to encourage correction of remediable defects; (d) to assist in the identification and education of handicapped children; (e) to help prevent and control disease; (f) to provide necessary emergency service for injury and sudden illness.

Our modern school deals with the physical, mental, emotional and social development of each pupil. Gone is the day when the school was primarily concerned with the facts a child memorized. The desire now is health, happiness and foundation for a useful life.

Certain health services help parents and school personnel to become acquainted with the health problems of children, and provide a means of helping children obtain solutions for their problems. For example, vision and hearing tests assist in determining the degree to which a child may benefit from his school experiences. As child health is improved, other aspects of school endeavor are more successful. To learn effectively, children need good health.

Unquestionably one of the most important factors in carrying out our health program effectively is the very fine cooperation and understanding which you, as parents and interested individuals, have given it.

It is a great pleasure to work with you, and a very rewarding experience to work with your children. Thank you for your cooperation.

Respectfully submitted.

FLORENCE MACIVER, R. N.

PROPOSED BUDGET OF THE SCHOOL DISTRICT

Expenditures	Actual Exp'tures 1953-54	Budget 1954-55	Estimated Exp'tures 1954-55	Proposed Budget 1955-56

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Charlestown of which the above is a true summary for the fiscal year ending June 30, 1954 and find them correct in all respects.

WALTER D. O'HEARNE
CHARLES F. ELLIOTT
Auditors

July 8, 1954.

SCHOOL WARRANT

State of New Hampshire

To the inhabitants of the School District in the Town of Charlestown qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the twelfth day of March, 1955, at two o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of district officials and agents, and for the payment of statutory obligations of the district and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund, together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see if the district will authorize the school board to appropriate receipts from federal lunch reimbursements, tuition, gifts and any other receipts from miscellaneous sources, in addition to the original appropriation for 1955-56, for the lunch program, general expenses, equipment and improvements.
10. To see what sum of money the district will vote to raise and appropriate for the purchase of band uniforms.

11. To see if the school district will vote to adopt a plan for extending to employees of the school district the benefits of title II of the Federal Social Security Act (Old Age and Survivor's Insurance) as authorized by Chapter 234 of the Laws of 1951 and to raise and appropriate the sum of \$160.00 to defray the school district's share of the cost thereof.

12. If the foregoing article is adopted, to see if the school district will authorize the school board to execute on behalf of the school district the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the school district will designate the school district treasurer as the officer to be responsible for the administration of the plan.

13. To see if the district will vote to raise and appropriate a sum of money as a contingency fund to provide for unanticipated expenses for the school year 1955-56.

14. To transact any other business that may legally come before this meeting.
